- COMMERCIAL LAUNDRY
- IN-HOUSE INFRASTRUCTURE
- FLATWORK IRONERS

- 18,000 SQ. MTRS. OF FACILITIES
- WASHER EXTRACTORS
- PACKING & DESPATCH

Our Services

LAUNDRY

Along with other services, we also render in-house laundry services to our clients. Proper installation of machines and maintenance, supply of required cleaning chemicals with a dosing pump, manpower etc are made available at the client's facility i.e. hospitals, hotels etc. This in-house service ensures we offer the best possible hygienic experience to clients who require these services to maintain their business activities properly.

PICK & DROP SERVICES

Under this service, the laundry is picked from the desired location, sorted, the stain is removed and then cleaned with other clothes. We ensure that the stained clothes are taken care of separately and not mixed with other Lenin. The bed sheets are then put into a calendar press post their proper washing. Other clothes such as uniforms are put into different dryer machines. These are later steam pressed, packed and delivered.

LINEN ON RENT

This is the flagship or most unique service that the company offers. Linen is provided on a rental basis for usage by our clients. Once these linen are used and seem to be unfit for reuse, these can be exchanged with new ones. Such services also prove economical to hospitals, hotels or other facilities wherein it is difficult for them to have their own laundry.

NEW LINEN

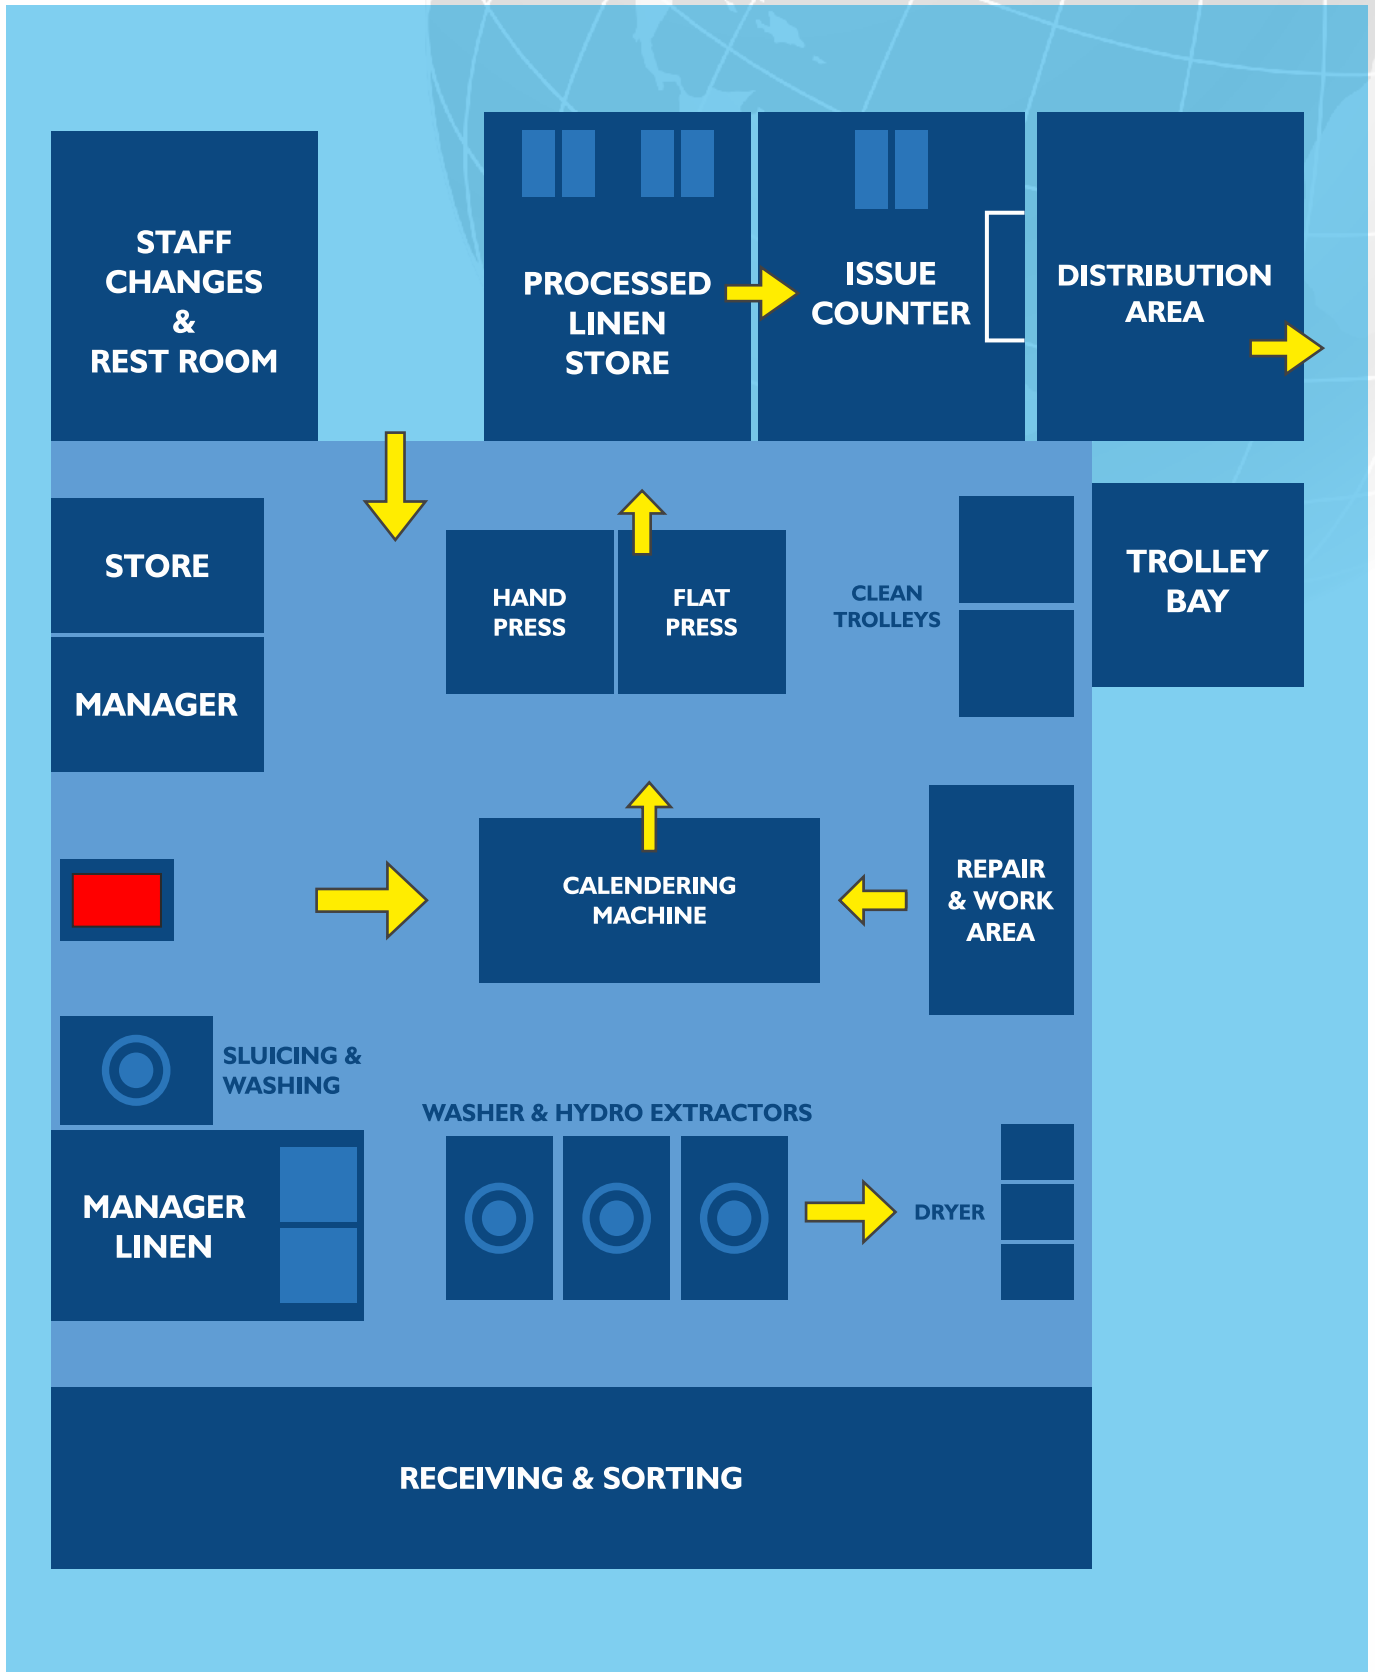

Time to say Goodbye to old, stained or torn linen, and say Hello to our new linen service. We help you with new linen and get it delivered as per your needs & convenience.

DISCARD LINEN EXCHANGE

As the name itself says, Discard linen Exchange simply means that the linen which is stained, damaged, or no longer useful due to repeated use, irreversible damage, wear/tear, permanent stain or any other reasons could be replaced with new ones by exchanging them with the used ones.

LAUNDRY MANAGEMENT PROCESS

CHEMICAL USED PROCESS

- Chemical used by us for washing are given below:

- We use chemical of 

1) Clax Crystal (Ditergent)

2) Clax Alegro (Ditergent)

3) Clax 200L (Emulsifier)

4) Clax Soft (softener)

5) Sonoril (Hydrogen Peroxide)

- We use 3ml chemical per kg for Linen
- The temperature of water is kept at 75°C
- We increase or decrease the quantity of chemical if the Linen is too dirty

LAUNDRY OPERATIONS

COLLECT

- Remove the linen before cleaning the room
- Don't use linen to clean floors, ashtrays, etc.

SORT

- Keep soiled linen away from clean linen
- Sort into marked bins and carts

WASH

- Use proper wash formulas
 - Don't shorten the cycles.
- Load at the recommended weight for best result

DRY

- Remove permanent press fabrics immediately after the cycle is done
- Don't over dry the (Sets Wrinkles)

FOLD

- Fold permanent press fabrics immediately after drying
- Inspect linen for wear or stains during folding
- Separate torn or stained linen

STORE

- Allow folded permanent press fabrics to set for 24 hours to eliminate wrinkles.
- Don't let clean linen contact floors, walls, or dirty carts

TRANSPORT

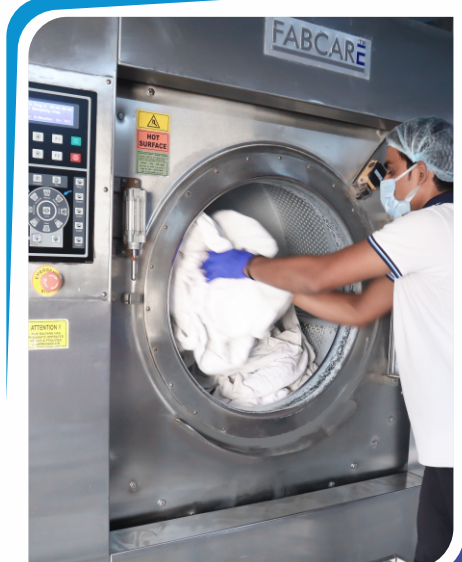

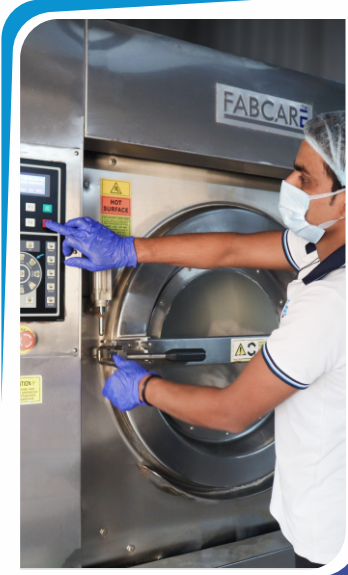

- Separate stained linen into separate collection bags or by tying knots
- Avoid dragging linen on the floor or walking on it.

DELIVERY

- Clean all equipment, carts, tables, and floors at the end of the day
